Detailed description of work

Irrigation plans to include the following items:

- ✚ Meter size, and which specific type of public water supply protection will be used, i.e., Atmospheric Vacuum Breaker (AVB), Pressure Vacuum Breaker (PVB), Double Check Valve Assembly *(DCVA), or if chemicals are to be added, then minimum protection required will be a Reduced Pressure Backflow Preventer * (RPBP). *These assemblies will require certification, see attached list of approved certified backflow testers*

ALL CONTRACTORS SHALL BE REGISTERED AS REQUIRED BY WASHINGTON STATE LAW. ALL CONTRACTORS/SUBCONTRACTORS MUST HAVE A VALID POULSBO BUSINESS LICENSE. Note: Can be obtained on www.cityofpoulsbo.com by clicking on clerk's department
