

The following contractors have met the minimum certification requirements of the Kitsap County Health District to perform Operation and Maintenance for on-site sewage systems (OSS) in Kitsap County. Please be aware that some OSS have certain proprietary components (equipment or devices) that, according to the manufacturer or distributor, require specialized training from the manufacturer or distributor above and beyond the minimum certification requirements of the Kitsap County Health District. The proprietary components requiring specialized training and service are listed below.

This list is not an endorsement of the named sewage disposal system or named maintenance specialist; neither does this list prove a warranty or assurance of quality by the KCHD over the sewage disposal system or maintenance specialist identified below. It is recommended that you contact more than one contractor for bids.

Certified Maintenance Specialists
