## City of Poulsbo

**Engineering Division** 

## **FOR IMMEDIATE RELEASE:**

April 8, 2014

City of Poulsbo - Engineering Division Andrzej Kasiniak, City Engineer 200 NE Moe Street Poulsbo, WA 98370 (360) 779-3901 www.cityofpoulsbo.com

## **Lincoln Road Construction**

The City of Poulsbo will be constructing improvements to NE Lincoln Road in 2014.

The project area is NE Lincoln Road from Laurie Vei Loop (near Pugh Road) to the roundabout at the intersection of NE Lincoln Road and Noll Road. The project includes construction of new sidewalks, bike lanes, shared use path, street lighting, storm drainage improvements, and replacement sewer and water lines as well as complete repaving and striping of the road. This project will complete the Lincoln Road improvements began in the mid 1990's.

Local citizens should be prepared for construction impacts. Construction hours on this project will be from 7:00 am to 7:00 pm on weekdays and 8:00 am to 7:00 pm on weekends. Lincoln Road will be restricted to alternating one-way traffic for most of the construction period, once the road construction begins.

Impacts and some delays can be expected beginning May 1<sup>st</sup>, as utility companies work to move utilities in advance of road construction.

Road construction will begin approximately June 1<sup>st</sup> and will continue through the end of October. Keeping traffic moving as best as possible will be a priority, but significant delays can be expected throughout the construction period.

Information signs will be going up on Lincoln Road within the next two weeks to give drivers advance notice of the impending construction.
