

# Choose Safer Walking & Bicycling Routes

## Routes that are safer have:

- Sidewalks, paths or bicycle lanes.
- Low traffic volume & speed limits.
- Nothing blocking the pedestrian, bicyclist, or motorist's view (trees, bushes).
- Traffic signals, pedestrian crossing signals, and clearly marked crossings.
- Good lighting.
- Drivers that practice safe driving behavior.
- People out walking and bicycling.
- A safe neighborhood where neighbors watch out for each others' safety.
- Groups walking or riding together with responsible role models.
