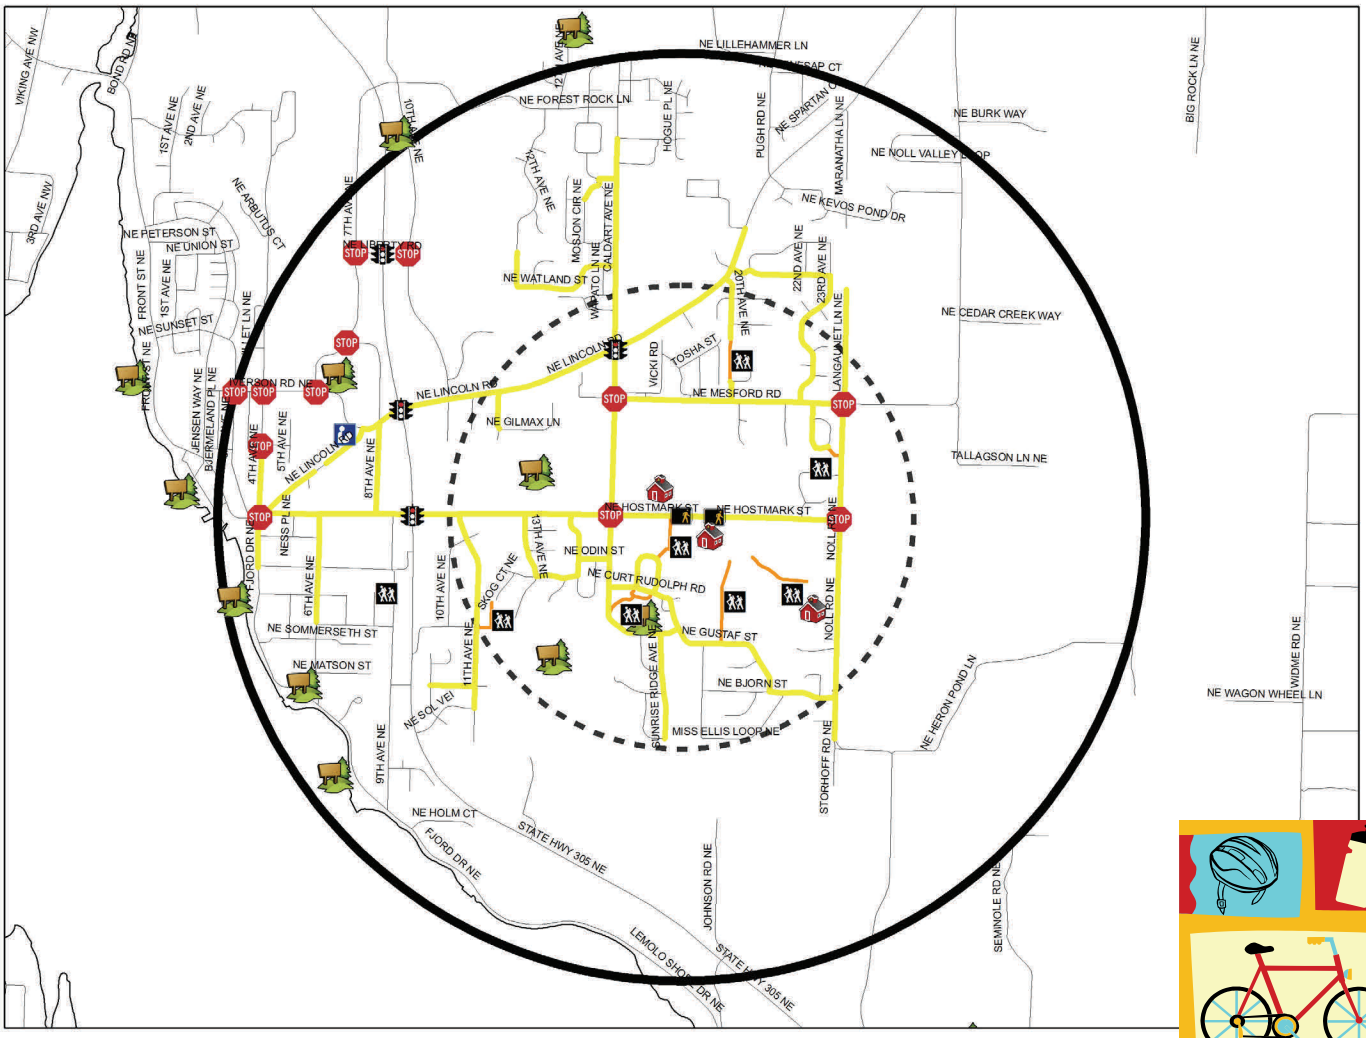
Choose Safer Walking & Bicycling Routes



Routes that are safer have:

⟶Sidewalks, paths or bicycle lanes.

⟶Low traffic volume & speed limits.

⟶Nothing blocking the pedestrian, bicyclist, or motorist's view (trees, bushes).

⟶Traffic signals, pedestrian crossing signals, and clearly marked crossings.

⟶Good lighting.

⟶Drivers that practice safe driving behavior.

⟶People out walking and bicycling.

⟶A safe neighborhood where neighbors watch out for each others' safety.

⟶Groups walking or riding together with responsible role models.
