

City of Poulsbo Environment Checklist

A. Background		
Name of proposed project, if applicable: 2017 Critical Areas Ordinance Update	Date Prepared: March 29, 2017	
Name of Applicant: City of Poulsbo	Address: 200 NE Moe Street Poulsbo, Washington 98370	Phone Number: (360) 394-9748
Contact: Karla Boughton, Planning and Economic Development Director	Agency Requesting Checklist: City of Poulsbo	
Proposed timing or schedule (including phasing, if applicable) The Planning Commission has scheduled public workshops on April 11, 18, and 25, 2017; a public hearing is scheduled for May 16, 2017. The City Council has workshops scheduled for May 24 and 31, 2017, and a public hearing scheduled on June 7, 2017. Additional workshops may be added by the PC or CC if determined necessary.		
Do you have any plans for future additions, expansions, or further activity related to or connected with this proposal? If yes, explain. The City's land use regulations are amended periodically, consistent with the Growth Management Act (GMA). The proposed changes will apply to future proposals subject to review under the Critical Areas Ordinance (CAO) and will provide the basis to evaluate and regulate future development proposals.		

Reviewed by Karla Boughton, Planning Director, March 31, 2017

List any environmental information you know about that has been prepared, directly related to this proposal.

The City used the following information was reviewed and utilized as appropriate for the 2017 CAO update. Previous documents reviewed and utilized as part of the original 2007 Critical Areas Ordinance remain as appropriate.

Wetlands:

- Revised Code of Washington (RCW) 36.70A.030(21)
- Washington Administrative Code (WAC) 173-22-035

Do you know whether applications are pending for governmental approvals or other proposals directly affecting the property covered by your proposal? If yes, explain.

The City processes land on an ongoing basis which may include impacts to critical areas. Permits will be processed under the current CAO until new regulations are adopted use and building permits and go into effect.

List any government approvals or permits that will be needed for your proposal, if known.

City Council approval and adoption.

Give a brief, complete description of your proposal, including the proposed uses and the size of the project and site. There are several questions later in this checklist that ask you to describe certain aspects of your proposal. You do not need to repeat those answers on this page.

The City of Poulsbo is undertaking a periodic review and update of its comprehensive plan and development regulations, as required by the Washington State Growth Management Act (GMA), RCW 36.70A.130(5). The GMA sets forth that Kitsap County and its cities should review and revise, if needed, their comprehensive plan and development regulations to ensure their plan and regulations comply with GMA requirements. Update of the City's Critical Areas Ordinance (CAO) is the last step in the current update cycle.

The City has reviewed and revised its development regulations related to Critical Areas. Chapter 16.20, known as "Critical Areas," of the Poulsbo Municipal Code (PMC) sets forth how the City will identify and protect critical areas as required by the GMA. The CAO are regulations for the protection of critical areas in accordance with state requirements. Critical Areas include:

- Wetlands
- Fish and Wildlife Habitat Conservation Areas
- Geologically Hazardous Areas
- Critical Aquifer Recharge Areas
- Frequently Flooded Areas

The City's CAO was last comprehensively updated in 2007. The intent of this current update is to revise the CAO as necessary to incorporate recent Best Available Science or new information since the last update (WAC 365-195-915), correction of code conflicts or internal inconsistencies, amendments to assist with ease of administration, or recommendations offered by the City's consultant critical areas biologists Grette Associates.

Amendments to the City of Poulsbo Critical Areas Ordinance have been made throughout the document. Most amendments are updating based upon 1) new Best Available Science provided by resource agencies; 2) recommendations by the City's consultant critical areas biologists; 3) amending corrections or conflicts; and 4) assist with ease of administration.

The April 2017 Draft Critical Areas Ordinance Update amendments are represented as **bold underline** for proposed additions and strikeouts for deletions. All documents related to the CAO Update are available for public review at this link: <http://www.cityofpoulsbo.com/planning/planning.htm>

The primary repository of all information related to the update is at this website – where draft documents, meeting dates, and official notices (notice of application, environmental review, public hearing notices, etc.), will be posted.

Location of the proposal. Give sufficient information for a person to understand the precise location of your proposed project, including a street address, if any, and section, township, and range, if known. If a proposal would occur over a range of area, provide the range or boundaries of the site(s). Provide a legal description, site plan, vicinity map, and topographic map, if reasonably available. While you should submit any plans required by the agency, you are not required to duplicate maps or detailed plans submitted with any permit applications related to this checklist.

Poulsbo is located in Township 26 North, Range 1 East, Willamette Meridian and is located in all or portions of Sections 9, 10, 11, 13, 14, 15, 22, 23, 24, 25, and 26.

The updated CAO regulations will apply city-wide and affects properties throughout the City of Poulsbo. The responses provided from this point forward imply city-wide applicability, unless otherwise specified.

Amendments are to Chapter 16.20 of the PMC.

B. Environmental Elements	Agree	Disagree	Mitigate
1. Earth			
<p>a. General description of the site (check one): <input checked="" type="checkbox"/> flat, <input type="checkbox"/> rolling, <input checked="" type="checkbox"/> hilly, <input type="checkbox"/> steep, <input checked="" type="checkbox"/> slopes, <input type="checkbox"/> mountainous, <input type="checkbox"/> other.</p> <p>Poulsbo's topography varies throughout the city, from flat to areas of steep slopes.</p> <p>Actual development will be subject to additional SEPA review as appropriate. Environmental review and a threshold determination will be required at the time of development review. Site specific development impacts are not identified at this time.</p>	✓		
<p>b. What is the steepest slope on the site (approximate percent slope)?</p> <p>There are areas within the city limits with slopes exceeding 40 percent, and potential geohazard areas are mapped on the City's critical areas maps. At the time of a development proposal, additional information on slopes will be required. Future development will require additional environmental review.</p>	✓		
<p>c. What general types of soils are found on the site (for example, clay, sand, gravel, peat, muck)? If you know the classification of agricultural soils, specify them and note any agricultural land of long-term commercial significance and whether the proposal results in removing any of these soils</p> <p>According to the Kitsap County Soil Survey, the soils within the city limits is predominately classified as Poulsbo Gravelly sandy loam, with areas of Kapowsin gravelly loam and Sinclair soils.</p> <p>No development is proposed at this time; therefore, site specific development impacts are not identified. Future development will be subject to phased SEPA review.</p>	✓		
<p>d. Are there surface indications or history of unstable soils in the immediate vicinity? If so, describe.</p> <p>Geohazards are mapped in the City's critical areas maps and unstable soils/slopes are regulated by the City's Critical Areas Ordinance.</p> <p>No development is proposed at this time. Review of soil conditions will</p>	✓		

<p>occur at the time specific proposals move forward.</p>			
<p>e. Describe the purpose, type, and approximate quantities of any filling or grading proposed. Indicate source of fill. This is not applicable to this non-project action.</p>	✓		
<p>f. Could erosion occur as a result of clearing, construction or use? If so, generally describe. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Erosion control would be addressed through existing City ordinances, including the clearing and grading and critical areas regulations.</p>	✓		
<p>g. About what percent of the site will be covered with impervious surfaces after project construction (for example, asphalt or buildings)? This is not applicable to this non-project action. No development is proposed at this time. Projects will require further analysis and SEPA review, where appropriate.</p>	✓		
<p>h. Proposed measures to reduce or control erosion, or other impacts to the earth, if any. None. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
2. Air			
<p>a. What types of emissions to the air would result from the proposal (i.e. dust, automobile, odors, industrial, wood smoke) during construction and when the project is completed? If any, generally describe and give approximate quantities if known. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>b. Are there any off-site sources of emissions or odor that may affect your proposal? If so, generally describe. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. Proposed measures to reduce or control emissions or other impacts to air, if any. None. No development is proposed at this time. Determination will be made at the time specific proposals move forward. New construction will comply with the requirements of the Poulsbo Municipal Code and the Engineering Department, which will be reviewed at the time of a specific project proposal moving forward.</p>	✓		
3. Water			
<p>a. Surface:</p>			

<p>1) Is there any surface water body on or in the immediate vicinity of the site (including year-round and seasonal streams, saltwater, lakes, ponds, wetlands)? If yes, describe type and provide names. If appropriate, state what stream or river it flows into.</p> <p>Poulsbo's main surface water body is Liberty Bay; there are numerous streams and wetlands throughout the city limits. There is no development proposed at this time; future development will require additional environmental review.</p>			
<p>2) Will the project require any work over, in, or adjacent to (within 200 feet) the described waters? If yes, please describe and attach available plans.</p> <p>No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	<p>streams are mapped in Figures CAO 2, 3 & 4 (KPA)</p> <p>✓</p>		
<p>3) Estimate the amount of fill and dredge that would be placed in or removed from surface water or wetlands and indicate the area of the site that would be affected. Indicate the source of fill material.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	<p>✓</p>		
<p>4) Will the proposal require surface water withdrawals or diversions? Give general description, purpose, and approximate quantities, if known.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	<p>✓</p>		
<p>5) Does the proposal lie within a 100-year floodplain? If so, note location on the site plan.</p> <p>No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>			<p>Floodplain management is found in</p>
<p>6) Does the proposal involve any discharges of waste materials to surface waters? If so, describe the type of waste and anticipated volume of discharge.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	<p>Section 600 of draft CAO. (KPA)</p> <p>✓</p>		
<p>b. Ground:</p>			
<p>1) Will groundwater be withdrawn from a well for drinking water or other purposes? If so, give a general description of the well, proposed uses and approximate quantities withdrawn from the well. Will water be discharged to groundwater? Give general description, purpose, and approximate quantities if known.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	<p>✓</p>		

<p>2) Describe waste material that will be discharged into the ground from septic tanks or other sources, if any (for example: domestic sewage; industrial, containing the following chemicals..; agricultural; etc...). Describe the general size of the system, the number of such systems, the number of houses to be served (if applicable), or the number of animals or humans the system(s) are expected to serve.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. Water Runoff (including storm water):</p>			
<p>1) Describe the source of runoff (including storm water) and method of collection and disposal, if any (including quantities, if known). Where will this water flow? Will this water flow into other waters? If so, describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Future development will lead to stormwater runoff, which will be reviewed and required to meet City and State regulations for stormwater management. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>2) Could waste materials enter ground or surface waters? If so, generally describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>3) Does the proposal alter or otherwise affect drainage patterns in the vicinity of the site? If so, describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>d. Proposed measures to reduce or control surface, ground, and runoff water impacts, if any:</p> <p>This is not applicable to this non-project action. No development is proposed at this time. At the time of development review, projects will be reviewed for compliance with the City's adopted storm water management regulations and updated critical areas ordinance.</p>	✓		
<p>4. Plants</p>			
<p>a. Check types of vegetation found on the site:</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> Deciduous tree: alder, maple, aspen, other <input checked="" type="checkbox"/> Evergreen tree: fir, cedar, pine, other <input checked="" type="checkbox"/> Shrubs <input checked="" type="checkbox"/> Grass <input checked="" type="checkbox"/> Pasture <input type="checkbox"/> Crop or grain <input checked="" type="checkbox"/> Wet soil plants: cattail, buttercup, bulrush, skunk cabbage, other 			

<input type="checkbox"/> Water plants: water lily, eelgrass, milfoil, other <input type="checkbox"/> Other types of vegetation The checked vegetation is found throughout Poulsbo. This is not applicable to this non-project action. No development is proposed at this time. The existing vegetation for sites will be determined at the time of development review.	✓		
b. What kind and amount of vegetation will be removed or altered? This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
c. List threatened or endangered species known to be on or near the site. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
d. Proposed landscaping, use of native plants, or other measures to preserve or enhance vegetation on the site, if any. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Landscaping is typically required for new development proposals.	✓		
e. List all noxious weeds and invasive species known to be on or near the site. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Landscaping is typically required for new development proposals.	✓		<i>Draft CAO Section 200 addresses wetland protection. (KVB)</i>
5. Animals			
a. Check any birds and animals which have been observed on or near the site or are known to be on or near the site: <input checked="" type="checkbox"/> Birds: hawk, heron, eagle, songbirds, other: <input checked="" type="checkbox"/> Mammals: deer, bear, elk, beaver, other: <input checked="" type="checkbox"/> Fish: bass, salmon, trout, herring, shellfish, other: There are a variety of birds, fish, and mammals that inhabit Poulsbo. They are primarily located near streams and Liberty Bay.			
b. List any threatened or endangered species known to be on or near the site. Poulsbo has several listed species, including bald eagle, blue heron, harbor seal, salmon (Chinook, chum, coho), steelhead, cutthroat, hardshell clam, smelt, and sand lance. No development is proposed at this time. Additional environmental review will be conducted at the time of application for specific development.			<i>Draft CAO Section 200 & 300 address fish & wild life habitat. (KVB)</i>

<p>c. Is the site part of a migration route? If so, explain.</p> <p>Liberty Bay and adjacent streams are known to contain anadromous salmonids. The City is located within the Pacific Flyway – a flight corridor for migrating waterfowl and other birds – that extends from Alaska to Mexico and South America.</p>	✓		
<p>d. Proposed measures to preserve or enhance wildlife, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. The City's Critical Areas Ordinance provides protection for wildlife. Any additional mitigation necessary will be identified at the time of site specific development review.</p>	✓		
<p>e. List any invasive animal species known to be on or near the site.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. The City's Critical Areas Ordinance provides protection for wildlife. Any additional mitigation necessary will be identified at the time of site specific development review.</p>	✓		
6. Energy and Natural Resources			
<p>a. What kinds of energy (electric, natural gas, oil, wood stove, solar) will be used to meet the completed project's energy needs? Describe whether it will be used for heating, manufacturing, etc.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Electric energy is available city-wide and natural gas is available in specific locations in the city limits.</p>	✓		
<p>b. Would your project affect the potential use of solar energy by adjacent properties? If so, generally describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. What kinds of energy conservation features are included in the plans of this proposal? List other proposed measures to reduce or control energy impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Future development will meet the current energy code as identified in the International Building Code.</p>	✓		
7. Environmental Health			
<p>a. Are there any environmental health hazards, including exposure to toxic chemicals, risk of fire and explosion, spill, or hazardous waste, that could occur as a result of this proposal? If so, describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		

1)	Describe any known or possible contamination at the site from present or past uses. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
2)	Describe existing hazardous chemicals/conditions that might affect project development and design. This includes underground hazardous liquid and gas transmission pipelines located within the project area and in the vicinity. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
3)	Describe any toxic or hazardous chemicals that might be stored, used, or produced during the project's development or construction, or at any time during the operating life of the project. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
4)	Describe special emergency services that might be required. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
5)	Proposed measures to reduce or control environmental health hazards, if any. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
<i>Environmental hazards are addressed in Section 500 Critical Aquifer Recharge Areas</i>				
b. Noise				
1)	What types of noise exist in the area which may affect your project (for example: traffic, equipment, operation, other)? The city has a typical level of noise expected in an urban environment.	✓		
2)	What types of levels of noise would be created by or associated with the project on a short-term or a long-term basis (for example: traffic, construction, operation, other)? Indicate what hours noise would come from the site. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.	✓		
3)	Proposed measures to reduce or control noise impacts, if any. This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward. Construction noise is regulated in the Poulsbo Municipal Code.	✓		

(KPS)

8. Land and Shoreline Use			
<p>a. What is the current use of the site and adjacent properties? Will the proposal affect current land uses on nearby or adjacent properties? If so, describe.</p> <p>The city has a variety of single-family residential development along with commercial areas, and other uses including multifamily residential, light industrial, institutional, and parks.</p>	✓		
<p>b. Has the project site been used as working farmlands or working forest lands? If so, describe. How much agricultural or forest land of long-term commercial significance will be converted to other uses as a result of the proposal, if any? If resource lands have not been designated, how many acres in farmland or forest land tax status will be converted to nonfarm or nonforest use?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>1) Will the proposal affect or be affected by surrounding working farm or forest land normal business operations, such as oversize equipment access, the application of pesticides, tilling, and harvesting? If so, how:</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. Describe any structures on the site.</p> <p>No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>d. Will any structures be demolished? If so, what?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>e. What is the current zoning classification of the site?</p> <p>No development is proposed at the comprehensive plan amendment stage. Determination of zoning classification and applicable review requirements will be made at the time specific proposals move forward.</p>	✓		
<p>f. What is the current comprehensive plan designation of the site?</p> <p>No development is proposed at the comprehensive plan amendment stage. Determination of comprehensive plan designation will be made at the time specific proposals move forward.</p>	✓		
<p>g. If applicable, what is the current shoreline master program designation of the site?</p> <p>No development is proposed at the comprehensive plan amendment stage. Determination of shoreline designation and applicable review requirements will be made at the time specific proposals move forward.</p>	✓		

<p>h. Has any part of the site been classified as a critical area by the city or county? If so, specify</p> <p>The actual development of the specific sites will be subject to additional development review, and would be subject to environmental review. Site specific development impacts are not identified at this time. Identification of critical areas will be made based on the City's Critical Area Ordinances maps and site specific environmental information prepared during the development review process.</p>	✓		
<p>i. Approximately how many people would reside or work in the completed project?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>j. Approximately how many people would the completed project displace?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>k. Proposed measures to avoid or reduce displacement impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>l. Proposed measures to ensure the proposal is compatible with existing and projected land uses and plans, if any.</p> <p>No development is proposed with the comprehensive plan amendments. Determination of specific measures to ensure compatibility will be made during development review.</p>	✓		
<p>m. Proposed measures to reduce or control impacts to agricultural and forest lands of long-term commercial significance, if any.</p> <p>No development is proposed with the comprehensive plan amendments. Determination of specific measures to ensure compatibility will be made during development review.</p>	✓		
9. Housing			
<p>a. Approximately how many units would be provided, if any? Indicate whether high, middle, or low-income housing.</p> <p>None. This is a non-project action.</p>	✓		
<p>b. Approximately how many units, if any, would be eliminated? Indicate whether high, middle, or low-income housing.</p> <p>None. This is a non-project action.</p>	✓		
<p>c. Proposed measures to reduce or control housing impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		

The proposal is an update to the City's critical area regulations

(N/A)

10. Aesthetics			
<p>a. What is the tallest height of any proposed structure(s), not including antennas; what is the principal exterior building material(s) proposed?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>b. What views in the immediate vicinity would be altered or obstructed?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. Proposed measures to reduce or control aesthetic impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p> <p>While site specific development impacts are not identified at this time, building height and design review requirements are set forth in Poulsbo's zoning ordinance.</p>	✓		
11. Light and Glare			
<p>a. What type of light or glare will the proposal produce? What time of day would it mainly occur?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>b. Could light or glare from the finished project be a safety hazard or interfere with views?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. What existing off-site sources of light or glare may affect your proposal?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>d. Proposed measures to reduce or control light and glare impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p> <p>While site specific impacts are not identified at this time, the City's zoning ordinance contains lighting requirements. Additional environmental review will be required as sites are proposed for development.</p>	✓		
12. Recreation			
<p>a. What designated and informal recreational opportunities are in the</p>			

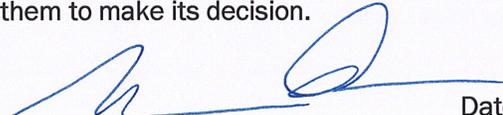

<p>immediate vicinity?</p> <p>Poulsbo has a variety of public parks and recreation opportunities throughout the city.</p>	✓		
<p>b. Would the proposed project displace any existing recreational uses? If so, describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>c. Proposed measures to reduce or control impacts on recreation, including recreation opportunities to be provided by the project or applicant, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
13. Historic and Cultural Preservation			
<p>a. Are there any buildings, structures, or sites, located on or near the site that are over 45 years old listed in or eligible for listing in national, state, or local preservation registers? If so, specifically describe.</p> <p>Unknown at this time. This is a non-project action. Determination will be made at the time of specific proposals for development.</p>	✓		
<p>b. Are there any landmarks, features, or other evidence of Indian or historic use or occupation? This may include human burials or old cemeteries. Are there any material evidence, artifacts, or areas of cultural importance on or near the site? Please list any professional studies conducted at the site to identify such resources.</p> <p>Unknown at this time.</p>	✓		
<p>c. Describe the methods used to assess the potential impacts to cultural and historic resources on or near the project site. Examples include consultation with tribes and the department of archeology and historic preservation, archaeological surveys, historic maps, GIS data, etc</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>d. Proposed measures to reduce or control impacts, if any.</p> <p>If at the time of site specific development, evidence of historic or cultural resources are found, proper protocols and notifications will be initiated.</p>	✓		
14. Transportation			
<p>a. Identify public streets and highways serving the site, and describe proposed access to the existing street system. Show on site plans, if any.</p> <p>Major streets and highways in Poulsbo include Highway 3, 305, State Route 307, Viking Avenue, Finn Hill, Front Street, Fjord Drive,</p>	✓		

Hostmark, Caldart, and Lincoln.			
<p>b. Is the site or affected geographic area currently served by public transit? If so, generally describe. If not, what is the approximate distance to the nearest transit stop?</p> <p>Kitsap Transit provides public transit throughout the city.</p>	✓		
<p>c. How many additional parking spaces would the completed project or non-project proposal have? How many would the project or proposal eliminate?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>d. Will the proposal require any new or improvements to existing roads, streets, pedestrian, bicycle or state transportation facilities, not including driveways? If so, generally describe (indicate whether public or private).</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>e. Will the project use (or occur in the immediate vicinity of) water, rail or air transportation? If so, generally describe.</p> <p>No.</p>	✓		
<p>f. How many vehicular trips per day would be generated by the completed project or proposal? If known, indicate when peak volumes would occur and what percentage of the volume would be trucks (such as commercial and nonpassenger vehicles). What data or transportation models were used to make these estimates?</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>g. Will the proposal interfere with, affect or be affected by the movement of agricultural and forest products on roads or streets in the area? If so, generally describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>h. Proposed measures to reduce or control transportation impacts, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p> <p>At the time of development review, projects will be reviewed for traffic impacts and appropriate mitigation will be imposed.</p>	✓		
15. Public Services			
<p>a. Would the project result in an increased need for public service (for example fire protection, police protection, health care, schools, other)?</p>			

<p>If so, generally describe.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
<p>b. Proposed measures to reduce or control direct impacts on public services, if any.</p> <p>This is not applicable to this non-project action. No development is proposed at this time. Determination will be made at the time specific proposals move forward.</p>	✓		
16. Utilities			
<p>a. Check the utilities currently available at the site: <input checked="" type="checkbox"/> electric, <input checked="" type="checkbox"/> natural gas, <input checked="" type="checkbox"/> water, <input checked="" type="checkbox"/> refuse service, <input checked="" type="checkbox"/> telephone, <input checked="" type="checkbox"/> sanitary sewer, <input type="checkbox"/> septic system, <input type="checkbox"/> other.</p> <p>Utilities are also available throughout the city, with natural gas only available in specific areas. No development is proposed with the amendments, and specific determination of utility services will be made at the time of development review.</p>	✓		
<p>b. Describe the utilities that are proposed for the project, the utility providing the service, and the general construction activities on the site or in the immediate vicinity which might be needed.</p> <p>Utilities are also available throughout the city, with natural gas only available in specific areas. No development is proposed with the amendments, and specific determination of utility services will be made at the time of development review.</p>	✓		

C. Signature

The above answers are true and complete to the best of my knowledge. I understand that the lead agency is relying on them to make its decision.

Signature:  Date Submitted: 3/31/17

D. Supplemental Sheet for Non-Project Actions

Because these questions are very general, it may be helpful to read them in conjunction with the list of the elements of the environment.

When answering these questions, be aware of the extent of the proposal, or the types of activities likely to result from the proposal, that would affect the item at a greater intensity or at a faster rate than if the proposal were not implemented. Respond briefly and in general terms.

1.	<p>How would the proposal be likely to increase discharge to water; emissions to air; production, storage, or release of toxic or hazardous substance; or production of noise?</p> <p>As a non-project action, amendments to the CAO would not create any of these effects. All development and uses will be subject to all applicable local, state and federal regulatory requirements and will be reviewed on a case-by-case basis during the development review process.</p>
	<p>Proposed measures to avoid or reduce such increases are:</p> <p>No measures are proposed with the ^{CAO} comprehensive plan amendments. However, measures will be identified as necessary during the development permit and environmental process for specific projects. Compliance with city regulations and other appropriate mitigations would reduce increases.</p>
2.	<p>How would the proposal be likely to affect plants, animals, fish, or marine life?</p> <p>As a non-project action, amendments to the CAO would not directly affect plants, animals, fish or marine life. However, the CAO's purpose is to identify and protect critical areas and is intended to have a positive effect on plants, animals, fish, and marine life.</p>
	<p>Proposed measures to protect or conserve plants, animals, fish, or marine life are:</p> <p>The CAO provides regulatory protective measures to protect and conserve vegetation and wildlife habitat. Additional measures may be identified during the development permit and environmental review process for specific projects.</p>
3.	<p>How would the proposal be likely to deplete energy or natural resources?</p> <p>As a non-project action, amendments to the CAO would not deplete energy or natural resources. Projects resulting from the amendments will require further environmental review at the time of development application.</p>
	<p>Proposed measures to protect or conserve energy and natural resources are:</p> <p>Measures would be identified during the project specific development permit and environmental review. Compliance with city regulations and other appropriate mitigations would provide the appropriate measures to reduce impacts.</p>
4.	<p>How would the proposal be likely to use or affect environmentally sensitive areas or areas designated (or eligible or under study) for governmental protection; such as parks, wilderness, wild and scenic rivers, threatened or endangered species habitat, historic or cultural sites, wetlands, floodplains, or prime farmlands?</p> <p>No development is proposed with the proposed CAO amendments. The CAO includes standards to protect critical areas and their buffers when development is proposed.</p>

	<p>Proposed measures to protect such resources or to avoid or reduce impacts are:</p> <p>Measures would be identified during the project specific development permit and environmental review. Compliance with city regulations and other appropriate mitigations would provide the appropriate measures to reduce impacts.</p>
5.	<p>How would the proposal be likely to affect land and shoreline use, including whether it would allow or encourage land or shoreline uses incompatible with existing plans?</p> <p>The proposed CAO amendments will not change existing land use patterns.</p> <p>Proposed measures to avoid or reduce shoreline and land use impacts are:</p> <p>The amendments being considered through the CAO Update do not pose shoreline or land use impacts. All development applications will be subject to further review under SEPA, the city's zoning code and the Shoreline Master Program where appropriate.</p>
6.	<p>How would the proposal be likely to increase demands on transportation or public services and utilities?</p> <p>No development is proposed with the CAP Update. However, future developments on the subject sites may have increased demands, which would be identified during the specific project development review. Projects resulting from amendments may require further review under SEPA which will be accomplished as required under WAC 197-11 and the Poulsbo Municipal Code.</p> <p>Proposed measures to reduce or respond to such demand(s) are:</p> <p>Measures to reduce impacts on transportation, public services and utilities would be identified during project specific development review. Compliance with city regulations and other appropriate mitigations could provide the appropriate measures to reduce impacts.</p>
7.	<p>Identify, if possible, whether the proposal may conflict with local, state, or federal laws or requirements for the protection of the environment.</p> <p>The proposal relies on BAS from Washington State Department of Fish and Wildlife, Department of Ecology, Department of Natural Resources, and review by qualified professionals. The proposed amendments do not conflict with any local, state or federal laws or requirements for the protection of the environment. All future development proposals would be required to follow all applicable regulations regarding the protection of the environment.</p>
