SIGN STANDARDS

A sign is any structure, device, advertisement, advertising device or visual representation intended to advertise, identify or communicate information to attract the attention of the public for any reason.

UNDERSTANDING WHAT’S ALLOWED

Signs are regulated by the Poulsbo Municipal Code (PMC), Chapter 18.170 to safeguard life, health, property and public welfare, to preserve and improve the appearance of the city as a place in which to live and as an attraction to nonresidents who come to visit or trade, and to encourage sound signage practices as an aid to business and for public information.

The size, number and other provisions for sign requirements are set forth under each specific zoning district. Properties located within the shoreline jurisdiction are subject to additional standards. Refer to the PMC for these specific standards:

- Residential Districts PMC 18.70
- Commercial Districts PMC 18.80
- Business and Employment Districts PMC 18.90
- Park Zoning District PMC 18.100
- Shoreline Master Program PMC 16.08

**Notes:**
- Properties incumbered by a Master Plan Overlay will often have additional sign standards. Talk to PED staff for help.
- Adopted CC&R's for subdivisions may have specific sign standards that are not enforced by the City. Please check with your Homes Owners Association if you have questions.
