Poulsbo is embarking on an exciting project for the Poulsbo Community!

The PERC will include a 40,000 square feet (sf) building on city-owned property in the College Market Place area of Poulsbo. The upstairs will feature 20,000 sf for events, while the downstairs will have 15,000 sf for a recreation center and the offices of the Poulsbo Parks and Recreation Department. Outside there will be 4 acres of lighted all-season fields.

College Market Place is a great location for the PERC, as there are many activities in the area. A new hotel will soon be built next door, and there are retail, business, and housing plans underway. The Poulsbo branches of Olympic College and Western Washington University on the Peninsulas are located on the north side of the city property.

This project is one of six who have applied for funding from the Kitsap Public Facilities District. Public Facilities Districts (PFDs) are municipal corporations with independent taxing authority and are taxing districts under the state constitution. The KPFD uses a state sales tax rebate (0.033%) to fund projects that provide economic development, innovation, efficient use of public monies, and has multiple uses. The City will be engaging the community and other partners during all phases. Stay tuned as the project moves forward.
