- **Household Income** — Includes all salary, wages, interest, dividends, and other earnings which are reportable for federal income tax purposes, and cash payments such as reimbursement received from pensions, annuities, social security, and public assistance programs. Also included in income are any contributions received from any family member or other person who is living in the same residence as the applicant applying for reduced utility rates and who is helping defray such applicant's living costs.
- **City of Poulsbo Citizen** — lives in a residence within the City limits. For a utility discount the residence is also served directly by the utility water and/or sewer facilities, and the applicant pays the water/sewer bill directly to the City of Poulsbo. Eligibility for a tenant to receive this reduced rate requires that the City must bill the tenant directly. This requires that the property owner submit a completed Utility Billing Authorization Application.

What is the filing period?

The application for the discount rate must be filed with the City of Poulsbo at any time to initiate. To remain eligible for the low income qualification, an applicant must provide verification of eligibility to the City by recertifying annually.
