

THREE STEPS TO A SAFE AND FUN SUMMER

1

VACCINATE

Your COVID-19 vaccination helps our whole community fight the virus—and especially those who can't be vaccinated (like young children and some with underlying health conditions). Find a vaccine by texting your zip code to **438829** or calling the Poulsbo Vaccine Appointment Help Line at (360) 394-9795.

2

HELP SOMEONE ELSE VACCINATE

Some community members have trouble finding or accessing vaccines. Reach out to people you know and share information about vaccine availability or transportation services (Kitsap Transit will provide a free ride with advance notice (360) 479-7272).

3

SIGN UP FOR NOTIFICATIONS

Get real time public safety notifications from the City of Poulsbo by signing up for Nixle. Text **POULSBO** to **888777** and stay up to date on important local information.
