Project Description:	The Oslo Bay Apartments project is a residential community comprised of thirteen apartment buildings and a Community Center. It encompasses 56-acres and includes Resultant Parcels V through VII of a Boundary Line Adjustment (BLA) being submitted for concurrent review with the site plan review. The proposed project will consist of 468 multi-family residential units including 244 one-bedroom, 208 two-bedroom, and 16 three-bedroom units on three levels within the thirteen buildings. A variety of common areas and resident amenities are located throughout the site and within the Community Center. The project also includes the construction of private roads, parking lots, pedestrian pathways, utilities, landscaping and stormwater management systems. The project will also develop a public road system from SR305 to Viking Ave NW. The Vetter Road NW right-of-way (Row) which bisects the site is proposed to be improved as a residential collector. A portion of this Row is proposed to be vacated and relocated to facilitate connection to SR305. The site contains the following critical areas: Dogfish Creek, unnamed creek, Category IV Wetland, Category III Wetland, Geologically Hazardous Areas, Critical Aquifer Recharge Areas		
Permits Included in Application:	Site Plan Review, Boundary Line Adjustment, Right-of-Way Vacation, SEPA Determination		
Permits NOT Included in Application:	Grading Permit, Building Permit, or other construction permits as determined through this permit process		
Environmental Review:	The SEPA Threshold will be issued with a separate 14-day comment period at a later date. It will be issued prior to the release of the staff report.
