

## Park Example Site Maps

This sitemap should show the city what and where you will be stationing things at the park.

It can be hand-drawn. Seeing what is being placed outside the facility rental, including areas that you plan on using on the grassy and park area includes outlining equipment you are bringing, i.e. chairs/tables/tent., decorations: flowers/lights/etc.

Note: you cannot use anything with stakes or that block the sidewalks, since it is a public park. If you have canopies/tents, they must be weighted.
