*Jeff Ozimek, Parks and Recreation Director*

Hello Poulsbo,

What a year 2025 has been so far! Our Parks & Recreation team, in close collaboration with our numerous community partners, have been making tremendous progress on a number of community projects.

Our Senior Task Force recently released the inaugural issue of Poulsbo Senior Connections. The newsletter will be distributed quarterly with the goal of keeping Poulsbo's seniors informed about the wonderful opportunities available to them in our great community. The timing couldn't be better as we've seen triple the amount of senior participation in our community programs since 2022, tracking to host over 1,200 senior participants by the end of this year.

We are also excited to share that the newly rebuilt Raab Park Skatepark will be celebrating its ribbon cutting later this fall. This skatepark refresh has been driven by our Poulsbo Skatepark Advisory Coalition, a group of dedicated volunteers who have been working diligently to update the skatepark with newly designed and installed features to be more accessible to skaters of all ages and abilities.

Later this fall, Muriel Iverson Williams Park will undergo a renovation of the outdated south end picnic area. Created in 1977, the area will see the concrete picnic tables replaced, visibility improved, and the trees given more room for their roots to grow in the beloved picnic spot.

This September, the community favorite "Parks for Pollinators BioBlitz" returns. This program encourages participants to use an app called iNaturalist to take pictures of plants, insects, and animals, thereby identifying the wildlife present on a given day and contributing to a scientific inventory of pollinator species. It will be followed by the new Poulsbo Pollinator Project (P3), which kicks off with a series of planting events in the City to create pollinator corridors. Not only will this beautify our beloved city, but it will also create much-needed habitat.

We are grateful to have so many community partners helping to enrich our lovely city!

Hope to see you in the parks,

Jeff Ozimek, CPRE  
Parks & Recreation Director

# VETERANS YOGA PROJECT

Mindful Resilience

Poulsbo Parks & Recreation is proud to partner with Veterans Yoga Project to bring trauma-informed, mindful resilience yoga classes to our community at no cost to those who serve and support our nation. Beginning September 11, 2025, we invite all Veterans, Active-Duty Military, and First Responders to join us for free weekly yoga classes designed to support physical and mental well-being through breath, movement, and relaxation. All others are warmly welcome to join with a donation, which goes directly to support Veterans Yoga Project.

Experience the calming benefits of Gentle Yoga, a slower paced practice with fewer standing poses and minimal strain on the wrists and knees. At Veterans Yoga Project Mindful Resilience is what we call the collection of mind-body practices that we teach: Breathing, Meditation, Mindful Movement, Guided Rest, and Gratitude. These tools help us breathe easy, focus clearly, move freely, rest deeply, and remember what is working in our lives. As a result, we become more resilient in the face of both ordinary and extraordinary challenges.

## IMPORTANT GYMNASTICS INFORMATION FOR THOSE WITH CHILDREN AGES 4 & 6:

Parents, we want your child to be successful in the class you choose for them, and you are the best judge of your child's ability to focus and follow directions. Most classes have an age option, for example:

- Tumbling Tots, Ages 3-4 and Kindergym, Ages 4-6.**  
 If your child is 4, has not already been introduced to a structured class, is high energy, and/or is unable to stay focused for very long, please register them for Tumbling Tots. If they are 4, are in preschool, and can stay focused on tasks, then please register them for Kindergym.
- Kindergym, Ages 4-6 and Leveled classes, Ages 6-10.**  
 If your 6-year-old has never done gymnastics, is tired after being in all-day kindergarten, and/or has trouble focusing, please register them for Kindergym. The Leveled gymnastics class may be frustrating for them.

## PROSPECTIVE COACHES!

To be successful, youth sports programs need caring, compassionate adults who are willing to devote some of their time to the kids. You don't have to be an expert! We have lots of helpful resources, including people that are willing to help you help our kids learn and have fun.

This is quality time for our young people. They are practicing physical and mental skills, interacting with their peers and adults in a healthy atmosphere and gaining the ability to compete toward a goal as part of a team and as an individual.

We will need head coaches, assistant coaches, and other interested adults for both **basketball** and **volleyball** this season.

Email Joe Schiel at [joes@cityofpoulsbo.com](mailto:joes@cityofpoulsbo.com) for more information on this valuable opportunity.

## ITALIAN RAPIER

### AGE 15+

### 8 WKS

Nathan Walker. The rapier was the deadliest dueling weapon in history. Rapier fencing is a game of control; controlling distance, controlling timing, controlling your opponent's mind. It's a deep psychological and extremely physical chess game of sorts that measures one's ability to think on their feet and adapt to constantly changing situations. No one did this more famously or dangerously than the 16<sup>th</sup>-century Italian fencing masters that we will study in this course. Bring your own equipment or use the instructors. New students can join at any time. No class on Jan 19. Recreation Center Gym.

## GERMAN LONGSWORD

### AGE 15+

### 8 WKS

Longsword is the most popular weapon studied in HEMA (Historical European Martial Arts) It's the largest and heaviest sword we study but still quite nimble due to the use of two hands on the weapon instead of only one. The Johannes Lichtenauer tradition of longsword fighting goes back to the mid-late 14<sup>th</sup> century and spawned a number of followers. They slowly improved upon his work, creating a dynasty of German longsword fencers that lasted hundreds of years. Joachim Meyer was one of the most celebrated followers of Lichtenauer and probably the most focused on the dueling aspects of longsword combat. It is Meyers's treatise we will be studying during this course and in the process, learning the foundations of both historical and competitive longsword fencing. Bring your own equipment or use the instructors. New students can join at any time. No class on Dec 24 or 31. Recreation Center Gym.

## BRITISH MILITARY SABER

### AGE 15+

### 8 WKS

Nathan Walker. Sabers are a somewhat late arrival in an ancient class of weaponry, that is, mid-length, curved blade, cutting swords. The saber was popular all over the world and across immense spans of time due to its convenient size, ease of carry and immense cutting capacity. It favors a flowing, call-and-response type of combat. One cannot think solely of striking their opponent as they will inevitably be struck in return. Instead, sabreurs must flow dynamically from defense to offense and back to defense in time to avoid the after-blow, even if they've already landed their own attack. We are currently studying Roworth's British Military Saber which includes the Highland Broadsword and the Spadroon. Saber is also fantastic for those looking for modern self-defense as saber techniques and tactics translate very well to almost anything vaguely sword shaped such as batons, sticks, canes and even umbrellas. New students can join at any time. No class on Dec 25 or Jan 1. Recreation Center Gym.
