

Some specifics about the schedule: updated Dec 27, 2024

Get your team number first. The teams are listed at the bottom of each weekly schedule. Coach's last names are used to identify the team. **BOYS ARE IN BLUE; GIRLS ARE IN RED.** The grade you are competing in is the first of two numbers. This is the number along the top of the column of names for your grade. The second number is the row number your name appears in. See the lower right hand side of the schedule for examples.

To more efficiently use the gym spaces we have, I've blocked different gyms for specific grades of play, with their own starting times along the left hand column of that block of color. The gym listed at the top of each column is also listed in another posting with the schedule, showing addresses for each gym. You can google these addresses if you are unfamiliar with the location of the gym site.

Games are scheduled to start each hour. The green-colored blocks all operate off the "Time" column included with the green-colored blocks. The gold time scale is included in the gold-colored block. Example:

Time	Vinland Elementary		Time	KMS#1	KMS#2
8am	31-35		8am		
9am	32-36		9am	43-46	51-65
10am	33-37		10am	*44-41	*47-41
11am	21-25		11am	52-53	*47-44
Noon	22-26		Noon	*44-47	43-46

First 3 games at Vinland are 3rd grade girls games. Last two games at Vinland are 2nd grade boys games.

At KMS, the curtain is dropped and we run two games at a time.

On KMS#1, there are 4 girls games scheduled.

On KMS#2, there is one girls game scheduled, followed by 3 boys games.

At KMS, there are two teams with double headers; Red44 and Blue47.

Some double headers will be held in different gyms. I've tried to have anyone doing a double header in two different gyms have their second game in their home gym. Most double headers will be in a single gym.

When you are copying your games down, check the whole schedule for games. There is a possibility of any team in any division having a double header any date. Remember, boys in blue, girls in red. For game start times, the blocks of color all operate by their associated "Time" column.

I will also have the game schedules posted Saturdays at each game site.
