

2025 CRITICAL AREAS ORDINANCE UPDATE, PHASE I

Public Participation Plan

INTRODUCTION

The City of Poulsbo is undertaking an update to its Critical Areas Ordinance (CAO) as part of the required periodic review under the Washington State Growth Management Act (GMA, RCW 36.70A). This update ensures the City's critical areas regulations remain consistent with current state law, reflect Best Available Science (BAS), and continue to protect the ecological functions and public health and safety associated with wetlands, fish and wildlife habitat, frequently flooded areas, geologically hazardous areas, and critical aquifer recharge areas.

To manage the complexity of the update and meet both statutory and local planning objectives, the CAO will be updated in two phases:

- Phase I (2025) will include required updates mandated by state law and guidance from the Washington State Department of Commerce, Department of Ecology, and Department of Fish and Wildlife. These changes are non-discretionary and must be completed as part of the City's 2025 GMA periodic update.
- Phase II (anticipated to begin in 2026) will focus on discretionary amendments identified by the city to improve clarity, address local implementation challenges, and support long-term environmental and regulatory goals.

This phased approach allows the city to meet state requirements within the periodic update deadline while also creating space for more thoughtful engagement on optional changes.

PUBLIC AND AGENCY GOALS

- To provide the public with timely information, an understanding of the process, and opportunities to review and comment, and to have those comments forwarded to the City's decision makers.
- Ensure that information about the process is provided to the public early in the process and at regular intervals thereafter, to maximize public awareness and participation in the process.
- Actively solicit information from citizens, property owners and stakeholders about their concerns, questions, and priorities for the future of Poulsbo.
- Encourage the public to informally review and comment on the amendments throughout the process.
- Incorporate public comment into the local government's review process prior to significant milestones or decision making.
- Provide forums for formal public input at milestones prior to decision making by local officials.
- Consult and consider recommendations from neighboring jurisdictions, federal and state agencies, and Native American tribes.

Public participation is an integral part of the planning process. Early and continuous public participation brings diverse viewpoints and values into the decision-making process and enables the city to make more informed decisions. These collaborative efforts build mutual understanding and trust between the city and the public they serve. The goal of this PPP is to provide all residents, property owners, business owners, and other stakeholders, an opportunity to understand and participate in the amendment process.
