

# 2026 Comprehensive Plan Annual Amendments

## Public Participation Plan

January 2026

### INTRODUCTION

The Washington State Growth Management Act (GMA) requires local governments to establish and maintain a public participation program to ensure meaningful engagement in the evaluation and amendment of comprehensive plans and development regulations. These requirements are intended to promote transparency, early and continuous public involvement, and coordination with affected agencies throughout the planning process.

In the City of Poulsbo, Poulsbo Municipal Code (PMC) [19.40.050\(D\)](#) further implements the GMA by establishing specific procedures and expectations for public and agency participation as part of the City's annual comprehensive plan amendment process. Consistent with these requirements, the City prepares a Public Participation Plan (PPP) to clearly outline how the community, partner agencies, and other interested parties will be informed and engaged.

The Annual Comprehensive Plan Amendment process provides a structured, once-per-year opportunity for the review and consideration of proposed changes to the City's [Comprehensive Plan](#), the long-range policy document that articulates Poulsbo's vision for its future growth and development over a 20-year planning horizon, including policies related to land use, housing, transportation, economic development, utilities, parks, and environment. Proposed amendments may be initiated by property owners (for site-specific changes) or by the City (for text or policy adjustments) and are considered together so the cumulative effect of the various proposals can be understood and evaluated. State law also allows certain amendments outside the annual cycle under specific criteria (e.g., subarea planning or emergency actions).

This PPP describes the steps the City of Poulsbo will take to involve the public and agencies with jurisdiction in the 2026 Annual Comprehensive Plan Amendment (CPA) process. The purpose of the plan is to ensure that proposed amendments are reviewed through a transparent, inclusive, and well-coordinated process, and that the public and agency partners have meaningful opportunities to learn about, comment on, and help shape the 2026 Comprehensive Plan Amendments.

### PUBLIC AND AGENCY GOALS

- To provide the public with timely information, an understanding of the process, and opportunities to review and comment, and to have those comments forwarded to the City's decision makers.
- Ensure that information about the process is provided to the public early in the process and at regular intervals thereafter, to maximize public awareness and participation in the process.
- Actively solicit information from citizens, property owners and stakeholders about their concerns, questions, and priorities for the future of Poulsbo land uses and the City's Comprehensive Plan.
- Encourage the public to informally review and comment on the amendments throughout the process.
- Incorporate public comment into the local government's review process prior to significant milestones or decision making.
- Provide forums for formal public input at milestones prior to decision making by local officials.
- Consult and consider recommendations from neighboring jurisdictions, federal and state agencies, and Native American tribes.

Public participation is an integral part of the planning process. Early and continuous public participation brings diverse viewpoints and values into the decision-making process and enables the city to make more informed decisions. These collaborative efforts build mutual understanding and trust between the city and the public they serve. The goal of this PPP is to provide all residents, property owners, business owners, and other stakeholders, an opportunity to understand and participate in the 2026 Comprehensive Plan Amendment process.
